DIRECTA (UK) LTD.

TECHNICAL DATA SHEET:

Product: Our Reference No. 065B

Description: Mail-Lite Bubble Bag

TECHNICAL DETAILS:

Outstanding product protection:

Mail Lite (R) protective postal bags are lined with AirCap (R) bubble material with a special air retention barrier to seal every bubble against air loss for high performance cushioning.

Practical, easy to use:

Mail Lite (R) is easy to write on and doesn't need special pens. Label adhesion is excellent. All Mail Lite (R) sizes are bar-coded for computerised cashpoints, facilitating pricing at point of sale.

Self-Seal closure:

All Mail Lite (R) bags have a self-seal strip on the top flap. Simply slide the item into the bag, remove the release tape and fold over the flap to make a permanent seal. Ideal for saving time in a busy packing department or post room.

Easy Opening Tear Strip:

Mail Lite (R) White has a unique tear strip feature for quick and easy opening.

Lightweight for postal cost savings:

Mail Lite (R) typically saves over 35% in postal costs, thanks to its light weight in comparison to traditional packaging. Mail Lite (R) can often replace heavier, more expensive cartons which saves on distribution costs whilst offering greater protection to goods in transit.

SUGGESTED USES:

Mail Lite (R) Gold: multiple mailings and lightweight products including small books, games, soft toys, manuals etc.

Mail Lite (R) White: giftware and commercial mailings including CD, video, brochures, jewellery, clothing, documents etc.

Mail Lite (R) Plus: bulky and heavier items requiring extra protection such as engineering parts, electronics, large books, tools, spare parts etc.

SIZES:

Bag. No.	Internal Size mm	Qty per carton
065B000	100 x 160	100
065B00	120 x 210	100
065B0	150 x 210	100
065B1	180 x 260	100
065B2	220 x 260	100
065B3	220 x 330	50
065B4	240 x 330	50
065B5	270 x 360	50
065B6	300 x 440	50
065B7	350 x 470	50

HEALTH AND SAFETY

ENVIRONMENTAL SUMMARY:

Supplied specifications:

80g/m2 MG bleached kraft paper + 12g/m2 LD-polyethylene

80g/m2 unbleached kraft paper (yellow) + 12g/m2 Ld-polyethylene

115g/m2 Mottled kraft liner + 12g/m2 LD-polyethylene

The kraft papers (bleached and unbleached) are produced from 100% virgin kraft pulp. The mottled kraft liner consist of about 30% recycled fibres. The bleached pulp used in both the bleached kraft paper and the mottled kraft liner is bleached without use of elementary chlorine (ECF-pulp).

All used paper grades fulfil the demands in the EU-directive 94/62 regarding heavy metal content (the sum of the amount of cadmium, lead, chromium VI and mercury less than 100 ppm) and the use of hazardous substances in the process.

The materials are also possible to recycle both as material and energy in accordance to the standards related to the EU-directive.
