# DLUBE1 D Lube Damp Away Lubricant Spray

Size: 500ml

SECTION 1: Identification of the	he substance/mixture and of the company/undertaking
1.1. Relevant identified uses o	f the substance or mixture and uses advised against
Identified uses	Lubricant aerosol
1.2. Details of the supplier of the	he safety data sheet
Supplier	Directa UK Ltd., Cold Norton, Essex. CM3 6UA 01621 828882 head.office@directa.co.uk
1.3. Emergency telephone nur	nber
Emergency telephone	01621 828882
SECTION 2: Hazards identification	ation
2.1. Classification of the subst	ance or mixture
Classification	
Physical hazards	Aerosol 1 - H222, H229
Health hazards	STOT SE 3 - H336
Environmental hazards	Not Classified
Classification (67/548/EEC or 1999/45/EC)	F+;R12. R66.
Human health	Gas or vapour is harmful on prolonged exposure or in high concentrations. In high concentrations, vapours and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Deliberately concentrating and inhaling the contents of this container is dangerous and can be fatal.
Environmental	The product is not expected to be hazardous to the environment.
Physicochemical	Aerosol containers can explode when heated, due to excessive pressure build-up. The product is extremely flammable. When sprayed on a naked flame or any incandescent material the aerosol vapours can be ignited.
2.2. Label elements	
Pictogram	
$\wedge$	

Signal word

Danger

Hazard statements	H229 Pressurised container: may burst if heated H336 May cause drowsiness or dizziness. H222 Extremely flammable aerosol.
Precautionary statements	<ul> <li>P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.</li> <li>P102 Keep out of reach of children.</li> <li>P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> <li>P211 Do not spray on an open flame or other ignition source.</li> <li>P251 Do not pierce or burn, even after use.</li> <li>P260 Do not breathe vapour/spray.</li> <li>P271 Use only outdoors or in a well-ventilated area.</li> <li>P501 Dispose of contents/container in accordance with local regulations.</li> </ul>
Contains	ALIPHATIC HYDROCARBON (D40)

### 2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

### SECTION 3: Composition/information on ingredients

ALIPHATIC HYDROCARBON (D40)		30-60

**General information** 

Move affected person to fresh air at once.

Inhalation	If spray/mist has been inhaled, proceed as follows. Move affected person to fresh air and
	keep warm and at rest in a position comfortable for breathing. If breathing stops, provide artificial respiration. Keep affected person warm and at rest. Get medical attention immediately.
Ingestion	Rinse mouth thoroughly with water. Do not induce vomiting. Get medical attention.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water.
Eye contact	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention.
4.2. Most important symptoms	and effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
4.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog.
5.2. Special hazards arising from the substance or mixture	
Specific hazards	Extremely flammable. Forms explosive mixtures with air. Vapours are heavier than air and may spread near ground and travel a considerable distance to a source of ignition and flash back. Containers can burst violently or explode when heated, due to excessive pressure build-up.
5.3. Advice for firefighters	
Protective actions during firefighting	Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Use water to keep fire exposed containers cool and disperse vapours. Warn firefighters that aerosols are involved.
SECTION 6: Accidental release	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Provide adequate ventilation. Use suitable respiratory protection if ventilation is inadequate. Avoid inhalation of vapours.
6.2. Environmental precaution	<u>s</u>
Environmental precautions	Avoid the spillage or runoff entering drains, sewers or watercourses. Contain spillage with sand, earth or other suitable non-combustible material.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Absorb spillage with non-combustible, absorbent material. Leave small quantities to evaporate, if safe to do so. Do not allow material to enter confined spaces, due to the risk of explosion.
6.4. Reference to other section	
Reference to other sections	For personal protection, see Section 8. For waste disposal, see Section 13.
SECTION 7: Handling and sto	rage

### 7.1. Precautions for safe handling

Usage precautions	Read and follow manufacturer's recommendations. Keep away from heat, sparks and open flame. Eliminate all sources of ignition. Do not spray on a naked flame or any incandescent material.
7.2. Conditions for safe storage	e, including any incompatibilities
Storage precautions	Extremely flammable. Keep away from heat, sparks and open flame. Store at moderate temperatures in dry, well ventilated area. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure Control	Is/personal protection
8.1. Control parameters	
Occupational exposure limits	
ALIPHATIC HYDROCARBON	
Long-term exposure limit (8-h	
PETROLEUM GASES, LIQUEFIED; PETROLEUM GAS	
Long-term exposure limit (8-hour TWA): WEL 1000 ppm 1750 mg/m³ Short-term exposure limit (15-minute): WEL 1250 ppm 2180 mg/m³	
Odourless Kerosene	
Long-term exposure limit (8-hour TWA): OEL 1200 mg/m³ WEL = Workplace Exposure Limit OEL = Occupational Exposure Limit.	
Ingredient comments	WEL = Workplace Exposure Limits
	ALIPHATIC HYDROCARBON (D40)
	<u></u>
DNEL	Workers - Dermal; Long term systemic effects: 300 mg/kg/day Workers - Inhalation; Long term systemic effects: 1500 mg/m <sup>3</sup>
	Consumer - Dermal; Long term systemic effects: 300 mg/kg
	Consumer - Inhalation; Long term systemic effects: 900 mg/m <sup>3</sup>
0.0 Europuna controla	Consumer - Oral; Long term systemic effects: 300 mg/kg/day
8.2. Exposure controls	
Appropriate engineering controls	Provide adequate ventilation. Avoid inhalation of vapours and spray/mists. Observe any occupational exposure limits for the product or ingredients.
Personal protection	When using do not smoke.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles.
Hand protection	Due to the packaging form, aerosol, risk of skin contact is small. Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material.
Hygiene measures	Wash hands after handling. Wash promptly if skin becomes contaminated. Wash hands at the end of each work shift and before eating, smoking and using the toilet. Use appropriate skin cream to prevent drying of skin.
Respiratory protection	If ventilation is inadequate, suitable respiratory protection must be worn.

#### **SECTION 9: Physical and Chemical Properties** 9.1. Information on basic physical and chemical properties Appearance Aerosol. Colour Colourless to pale yellow. Odour Organic solvents. Initial boiling point and range -40 to -2°C @ 1013 hPa Flash point <-40°C Upper/lower flammability or Lower flammable/explosive limit: 1.4% Upper flammable/explosive limit: 10.9% explosive limits Vapour pressure ca. 590 to 1760 kPa @ 45°C Vapour density ca. 1.5 at 15°C log Pow: ca. 2.3 to 2.8 Partition coefficient Auto-ignition temperature 410-580°C Comments Information given is applicable to the major ingredient. 9.2. Other information Other information Not available. Volatile organic compound This product contains a maximum VOC content of 660 g/l. SECTION 10: Stability and reactivity 10.1. Reactivity Reactivity Stable at normal ambient temperatures and when used as recommended. 10.2. Chemical stability Avoid the following conditions: Heat, sparks, flames. Stability 10.3. Possibility of hazardous reactions Possibility of hazardous Does not decompose when used and stored as recommended. reactions 10.4. Conditions to avoid Conditions to avoid Avoid heat, flames and other sources of ignition. Avoid exposing aerosol containers to high temperatures or direct sunlight. 10.5. Incompatible materials Materials to avoid Keep away from oxidising materials, heat and flames. 10.6. Hazardous decomposition products Hazardous decomposition Does not decompose when used and stored as recommended. Thermal decomposition or products combustion products may include the following substances: Toxic and corrosive gases or vapours. SECTION 11: Toxicological information

11.1. Information on toxicological effects

SECTION 14: Transport information

General	This product is packed in accordance with the Limited Quantity Provisions of CDGCPL2, ADR and IMDG. These provisions allow transport of aerosols of less than 1 litre packed in cartons of less than 30kg gross weight to be exempt from control providing that they are labelled in accordance with the requirements of these regulations to show that they are being transported as Limited Quantities. Aerosols not so packed and labelled must show the following.	
14.1. UN number		
UN No. (ADR/RID)	1950	
UN No. (IMDG)	1950	
UN No. (ICAO)	1950	
14.2. UN proper shipping name		
Proper shipping name (ADR/RID)	AEROSOLS	
Proper shipping name (IMDG)	AEROSOLS	
Proper shipping name (ICAO)	AEROSOLS	
Proper shipping name (ADN)	AEROSOLS	
14.3. Transport hazard class(es)		
ADR/RID class	2.1	
ADR/RID label	3	
IMDG class	2.1	
ICAO class/division	2.1	
<b>T</b>		

### Transport labels

#### 14.4. Packing group

Not applicable.

#### 14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

#### 14.6. Special precautions for user

Tunnel restriction code (D)

### 14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations

The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716).

EU legislation	Commission Regulation (EU) No 453/2010 of 20 May 2010.
Guidance	Workplace Exposure Limits EH40.
	CHIP for everyone HSG228.
	Safety Data Sheets for Substances and Preparations.
	Approved Classification and Labelling Guide (Sixth edition) L131.
	British Aerosol Manufacturers Code of Practice 7th. Edition 1999

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information	
Revision comments	New formulation
Revision date	16/10/2015
Revision	1
SDS number	12862
SDS status	Approved.
Risk phrases in full	R10 Flammable. R12 Extremely flammable. R65 Harmful: may cause lung damage if swallowed. R66 Repeated exposure may cause skin dryness or cracking.
Hazard statements in full	H220 Extremely flammable gas. H222 Extremely flammable aerosol. H226 Flammable liquid and vapour. H229 Pressurised container: may burst if heated H280 Contains gas under pressure; may explode if heated. H304 May be fatal if swallowed and enters airways. H336 May cause drowsiness or dizziness.
