DIRECTA

Preparing & Painting a Warehouse or Concrete Floor

STEP 1

Simply pour our Concrete Etching Fluid onto the floor and apply by brush. A floor scrubbing brush will help for larger areas.Simply brush on and rinse away.

Our Concrete Etching Fluid:

- Ensures good adhesion.
- Gives a 'key' to smooth concrete.
- Helps provide a slip/ skid resistant surface on polished concrete.

STEP 2

Once you have applied the Concrete Etching Fluid to your floor, carefully rinse the floor clean, make sure you don't use anything powerful like a pressure washer as this may ruin all your hard work!

STEP 3

You can now leave the floor to dry out! (Approx. 48 hours)

When the floor is dry, it's ready to paint!

STEP 4

Usually just one coat of our Epoxy Gloss Coat will do the job, but to ensure a perfectly even finish you should coat the floor twice. Our Epoxy Gloss Coat comes in a wide range of colours to suit you!

STEP 5

Once dried, your concrete floor is now ready to use.

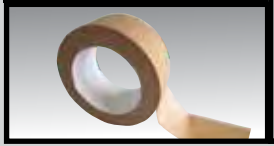
Clear Stationery Tape

Product Code	Size	PG	Price per roll
02009AUCK	25mm x 66M	H	£2.50
02009BSCK	50mm x 66M	H	£5.25

Cellulose stationery tape is as much at home in the office as it is on production lines and in packaging departments. It is truly one of the most versatile tapes on the market. The tape is used in a variety of packaging and jointing applications where an invisible seal is required.

Recovery Tape



Product Code	Size	PG	Price per roll
F7011AVBU	25mm x 50M	F	£1.35
F7011BIBU	38mm x 50M	F	£1.95
F7011BUBU	50mm x 50M	F	£2.55

Recovery tape offers outstanding performance as an ecological packaging tape. The material is a low-crepe brown paper with excellent conformability and anti-slip surface. The paper is absolutely silicone-free and the adhesive is fully thermoplastic (hot melt), (which is the same nature of the glues usually used for box/carton assembly) in order to offer the best possibility for the recycling of the used packaging boxes.

Reinforced Strapping Tape X-Weave
