

Based upon Regulation (EC) No 1907/2006, as amended by Regulation (EU) No 2015/830

Grip ALL Solvent Based

SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1. Product identifier Product name Registration number REACH Product type REACH
- : Grip ALL Solvent Based
- : Not applicable (mixture)
- : Mixture

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1 Relevant identified uses Adhesive

<u>1.2.2 Uses advised against</u> No uses advised against known

1.3. Details of the supplier of the safety data sheet

Supplier of the safety data sheet Directa UK Ltd Cold Norton Essex CM3 6UA

Tel: 01621 828882 Email: head.office@directa.co.uk

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classified as dange	Classified as dangerous according to the criteria of Regulation (EC) No 1272/2008						
Class	Category	Hazard statements					
Flam. Liq.	category 2	H225: Highly flammable liquid and vapour.					
Skin Irrit.	category 2	H315: Causes skin irritation.					
Eye Irrit.	category 2	H319: Causes serious eye irritation.					
STOT SE	category 3	H336: May cause drowsiness or dizziness.					
Aquatic Chronic	category 2	H411: Toxic to aquatic life with long lasting effects.					

2.2. Label elements

 Contains: ethyl acetate; butanone; hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, < 5% n-hexane.</td>

 Signal word
 Danger

 H-statements
 Highly flammable liquid and vapour.

 H315
 Causes skin irritation.

H319 Causes serious eye irritation.

- H336 May cause drowsiness or dizziness.
- H411 Toxic to aquatic life with long lasting effects.
 P-statements
 P101 If medical advice is needed, have product container or label at hand.
 - P102 Keep out of reach of children.
 - P102
 Reep out of reach of children.

 P210
 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

 P280
 Wear protective gloves, protective clothing and eye protection/face protection.

Publication date: 2007-09-13

Date of revision: 2019-07-03

134-15960-657-en

P271 P264

P405

P501

P264 P304 + P340 Wash hands thoroughly after handling.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Store locked up.

Dispose of contents/container in accordance with local/regional/national/international regulation.

Supplemental information EUH208

Contains: rosin. May produce an allergic reaction.

Use only outdoors or in a well-ventilated area.

2.3. Other hazards

Gas/vapour spreads at floor level: ignition hazard

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

(1) For H-statements in full: see heading 16

(2) Substance with a Community workplace exposure limit

(10) Subject to restrictions of Annex XVII of Regulation (EC) No. 1907/2006

SECTION 4: First aid measures

4.1. Description of first aid measures

General:

Check the vital functions. Unconscious: maintain adequate airway and respiration. Respiratory arrest: artificial respiration or oxygen. Cardiac arrest: perform resuscitation. Victim conscious with laboured breathing: half-seated. Victim in shock: on his back with legs slightly raised. Vomiting: prevent asphyxia/aspiration pneumonia. Prevent cooling by covering the victim (no warming up). Keep watching the victim. Give psychological aid. Keep the victim calm, avoid physical strain. Depending on the victim's condition: doctor/hospital.

After inhalation:

Remove the victim into fresh air. Respiratory problems: consult a doctor/medical service.

After skin contact:

Wash immediately with lots of water. Take victim to a doctor if irritation persists.

After eye contact:

Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Take victim to an ophthalmologist if irritation persists.

After ingestion:

Rinse mouth with water. Do not induce vomiting. Consult a doctor/medical service if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

4.2.1 Acute symptoms After inhalation:

EXPOSURE TO HIGH CONCENTRATIONS: Central nervous system depression. Dizziness. Narcosis. Mental confusion. ON CONTINUOUS EXPOSURE/CONTACT: Slight irritation.

After skin contact:

Tingling/irritation of the skin. ON CONTINUOUS EXPOSURE/CONTACT: Dry skin.

Reason for revision: 1.4;2.2;5.1;8.1;9.1;12.6

After eye contact: Irritation of the eye tissue. After ingestion: No effects known. 4.2.2 Delayed symptoms

4.2.2 Delayed symptoms No effects known.

4.3. Indication of any immediate medical attention and special treatment needed

If applicable and available it will be listed below.

SECTION 5: Firefighting measures

5.1. Extinguishing media

5.1.1 Suitable extinguishing media:

Small fire: Quick-acting ABC powder extinguisher, Quick-acting BC powder extinguisher, Quick-acting class B foam extinguisher, Quick-acting CO2 extinguisher. Major fire: Class B foam (not alcohol-resistant).

5.1.2 Unsuitable extinguishing media:

Small fire: Water (quick-acting extinguisher, reel); risk of puddle expansion.

Major fire: Water; risk of puddle expansion.

5.2. Special hazards arising from the substance or mixture

Upon combustion CO and CO2 are formed (carbon monoxide - carbon dioxide).

5.3. Advice for firefighters

5.3.1 Instructions:

If exposed to fire cool the closed containers by spraying with water. Do not move the load if exposed to heat. Take account of environmentally hazardous firefighting water. Use water moderately and if possible collect or contain it.

5.3.2 Special protective equipment for fire-fighters:

Gloves. Protective goggles. Head/neck protection. Protective clothing. Heat/fire exposure: compressed air/oxygen apparatus.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Stop engines and no smoking. No naked flames or sparks. Spark- and explosion proof appliances and lighting equipment.

- 6.1.1 Protective equipment for non-emergency personnel See heading 8.2
- 6.1.2 Protective equipment for emergency responders

Gloves. Protective goggles. Head/neck protection. Protective clothing. Suitable protective clothing See heading 8.2

6.2. Environmental precautions

Contain released product. Dam up the liquid spill. Try to reduce evaporation. Prevent soil and water pollution. Prevent spreading in sewers. Use appropriate containment to avoid environmental contamination.

6.3. Methods and material for containment and cleaning up

Take up liquid spill into absorbent material, e.g.: sand/earth. Scoop absorbed substance into closing containers. Carefully collect the spill/leftovers. Clean contaminated surfaces with a soap solution. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.

6.4. Reference to other sections

See heading 13.

SECTION 7: Handling and storage

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

7.1. Precautions for safe handling

Keep away from naked flames/heat. Insufficient ventilation: keep naked flames/sparks away. Insufficient ventilation: use spark-/explosionproof appliances and lighting system. Observe strict hygiene. Remove contaminated clothing immediately. Do not discharge the waste into the drain. Keep container tightly closed.

7.2. Conditions for safe storage, including any incompatibilities

7.2.1 Safe storage requirements:

Storage temperature: 20 °C. Store in a dark area. Store at room temperature. Ventilation at floor level. Meet the legal requirements. Max. storage time: 1 year(s).

7.2.2 Keep away from:

Heat sources, ignition sources, oxidizing agents.

7.2.3 Suitable packaging material:

Tin.

7.2.4 Non suitable packaging material:

No data available

7.3. Specific end use(s)

If applicable and available, exposure scenarios are attached in annex. See information supplied by the manufacturer.

Reason for revision: 1.4;2.2;5.1;8.1;9.1;12.6

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.1.1 Occupational exposure

a) Occupational exposure limit values If limit values are applicable and available these will be listed below.

סתמווטווכ	exposure limit value)	200 ppm
	Time-weighted average exposure limit 8 h (Indicative occupational exposure limit value)	600 mg/m
	Short time value (Indicative occupational exposure limit value)	300 ppm
	Short time value (Indicative occupational exposure limit value)	900 mg/m
Ethyl acetate	Time-weighted average exposure limit 8 h (Indicative occupational exposure limit value)	200 ppm
	Time-weighted average exposure limit 8 h (Indicative occupational exposure limit value)	734 mg/m
	Short time value (Indicative occupational exposure limit value)	400 ppm
Belgium		
2.6-Di-tert-butyl-n-crésol (vaneur et aérosol)	Time-weighted average exposure limit 8 h	2 mg/m³
2-Butanone	Time-weighted average exposure limit 8 h	200 ppm
	Time-weighted average exposure limit 8 h	600 mg/m
	Short time value	300 ppm
	Short time value	900 mg/m
Acétate d'éthyle	Time-weighted average exposure limit 8 h	200 mg/m
	Time-weighted average exposure limit 8 h	734 mg/m
	Short time value	400 ppm
	Short time value	1468 mg/r
Zinc (oxude de) (fraction alugolairo)	Time-weighted average exposure limit 9 h	2 mg/m ³
Line (Uxyue de) (Itaciloff diveolatie)	Chart time value	2 111g/111* 10 mg/m3
	phore unie value	TO mg/m
The Netherlands		
2-Butanon	Time-weighted average exposure limit 8 h (Public occupational exposure limit value)	197 ppm
	Time-weighted average exposure limit 8 h (Public occupational exposure limit value)	590 mg/m
	Short time value (Public occupational exposure limit value)	300 ppm
	Short time value (Public occupational exposure limit value)	900 mg/m
Ethylacetaat	Time-weighted average exposure limit 8 h (Public occupational exposure limit value)	734 mg/m
	Short time value (Public occupational exposure limit value)	1468 mg/r
France		
2,6-Di-tert-butyl-p-crésol	Time-weighted average exposure limit 8 h (VL: Valeur non réglementaire	10 mg/m ³
Acótato d'áthula	indicative)	400 ppm
Acetate d'ethyle	infle-weighted average exposure limit 8 if (vc. valeur non registerinitalie indicative)	400 ppm
	Time-weighted average exposure limit 8 h (VL: Valeur non reglementaire indicative)	1400 mg/r
Colophane (produits de décomposition des baguettes de soudure, exprimés en aldéhyde formique)	Time-weighted average exposure limit 8 h (VL: Valeur non réglementaire indicative)	0.1 mg/m ³
Méthyléthylcétone	Time-weighted average exposure limit 8 h (VRC: Valeur réglementaire contraignante)	200 ppm
	Time-weighted average exposure limit 8 h (VRC: Valeur réglementaire contraignante)	600 mg/m
	Short time value (VRC: Valeur réglementaire contraignante)	300 ppm
	Short time value (VRC: Valeur réglementaire contraignante)	900 mg/m
		5 mg/m ³

8.2. Exposure controls

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

8.2.1 Appropriate engineering controls

Reason for revision: 1.4;2.2;5.1;8.1;

Keep away from naked flames/heat. Insufficient ventilation: keep naked flames/sparks away. Insufficient ventilation: use spark-/explosionproof appliances and lighting system. Measure the concentration in the air regularly. Carry operations in the open/under local exhaust/ventilation or with respiratory protection.

8.2.2 Individual protection measures, such as personal protective equipment Observe strict hygiene. Do not eat, drink or smoke during work.

a) Respiratory protection:

Full face mask with filter type A at conc. in air > exposure limit.

b) Hand protection:

Gloves.

c) Eye protection:

Safety glasses.

d) Skin protection:

Protective clothing.

8.2.3 Environmental exposure controls:

See headings 6.2, 6.3 and 13

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical form	Viscous
Odour	Characteristic odour
Odour threshold	No data available
Colour	Variable in colour, depending on the composition
Particle size	No data available
Explosion limits	No data available
Flammability	Highly flammable liquid and vapour.
Log Kow	Not applicable (mixture)
Dynamic viscosity	No data available
Kinematic viscosity	No data available
Melting point	No data available
Boiling point	No data available
Evaporation rate	No data available
Relative vapour density	Not applicable
Vapour pressure	< 1100 hPa ; 50 °C
Solubility	Water ; insoluble
	Organic solvents ; soluble
Relative density	1.2
Decomposition temperature	No data available
Auto-ignition temperature	No data available
Flash point	< 23 °C
Explosive properties	No chemical group associated with explosive properties
Oxidising properties	No chemical group associated with oxidising properties
рН	No data available

9.2. Other information Absolute density

1220 kg/m³

SECTION 10: Stability and reactivity

10.1. Reactivity

May be ignited by sparks. Gas/vapour spreads at floor level: ignition hazard. No data available.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions No data available.

10.4. Conditions to avoid

Precautionary measures

Keep away from naked flames/heat. Insufficient ventilation: keep naked flames/sparks away. Insufficient ventilation: use spark-/explosionproof appliances and lighting system.

10.5. Incompatible materials

Oxidizing agents.

10.6. Hazardous decomposition products

Upon combustion CO and CO2 are formed (carbon monoxide - carbon dioxide).

Reason for revision: 1.4;2.2;5.1;8.1;9.1;12.6

Publication date: 2007-09-13 Date of revision: 2019-07-03

Revision number: 0202

SECTION 11: Toxicological information

11.1. Information on toxicological effects

11.1.1 Test results

Acute toxicity

Grip ALL Solvent Based

Conclusion

Contains component(s) with potential for mobility in the soil

12.5. Results of PBT and vPvB assessment

Does not contain component(s) that meet(s) the criteria of PBT and/or vPvB as listed in Annex XIII of Regulation (EC) No 1907/2006.

12.6. Other adverse effects

Grip ALL Solvent Based

Fluorinated greenhouse gases (Regulation (EU) No 517/2014)

None of the known components is included in the list of fluorinated greenhouse gases (Regulation (EU) No 517/2014)

Ozone-depleting potential (ODP)

Not classified as dangerous for the ozone layer (Regulation (EC) No 1005/2009)

Groundwater pollutant

SECTION 13: Disposal considerations

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

13.1. Waste treatment methods

13.1.1 Provisions relating to waste

European Union

Hazardous waste according to Directive 2008/98/EC, as amended by Regulation (EU) No 1357/2014 and Regulation (EU) No 2017/997. Waste material code (Directive 2008/98/EC, Decision 2000/0532/EC).

08 04 09* (wastes from MFSU of adhesives and sealants (including waterproofing products): waste adhesives and sealants containing organic solvents or other hazardous substances). Depending on branch of industry and production process, also other waste codes may be applicable.

13.1.2 Disposal methods

Incinerate under surveillance with energy recovery. Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals. Remove to an authorized waste treatment plant. Do not discharge into drains or the environment.

13.1.3 Packaging/Container

European Union

Waste material code packaging (Directive 2008/98/EC).

15 01 10* (packaging containing residues of or contaminated by dangerous substances).

VOC content	Remark	
36 %		

REACH Annex XVII - Restriction

Contains component(s) subject to restrictions of Annex XVII of Regulation (EC) No 1907/2006: restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles.

	Designation of the substance, of the group of	Conditions of restriction	
	substances or of the mixture		
ethyl acetate	Liquid substances or mixtures fulfilling the	1. Shall not be used in:	
butanone	criteria for any of the following hazard classes	- ornamental articles intended to produce light or colour effects by means of different	
· hydrocarbons, C6-C7, n-alkanes, isoalkanes,	or categories set out in Annex I to Regulation	phases, for example in ornamental lamps and ashtrays,	
cyclics, < 5% n-hexane	(EC) No 1272/2008:	 tricks and jokes, 	
	(a) hazard classes 2.1 to 2.4, 2.6 and 2.7, 2.8	- games for one or more participants, or any article intended to be used as such, even with	
	types A and B, 2.9, 2.10, 2.12, 2.13 categories 1	ornamental aspects,	
	and 2, 2.14 categories 1 and 2, 2.15 types A to	2. Articles not complying with paragraph 1 shall not be placed on the market.	
	F;	3. Shall not be placed on the market if they contain a colouring agent, unless required for	
	(b) hazard classes 3.1 to 3.6, 3.7 adverse effects	fiscal reasons, or perfume, or both, if they:	
	on sexual function and fertility or on	 can be used as fuel in decorative oil lamps for supply to the general public, and, 	
	development, 3.8 effects other than narcotic	 present an aspiration hazard and are labelled with H304, 	
	effects, 3.9 and 3.10;	4. Decorative oil lamps for supply to the general public shall not be placed on the market	
	(c) hazard class 4.1;	unless they conform to the European Standard on Decorative oil lamps (EN 14059) adopted	
	(d) hazard class 5.1.	by the European Committee for Standardisation (CEN).	
		5. Without prejudice to the implementation of other Community provisions relating to the	
		classification, packaging and labelling of dangerous substances and mixtures, suppliers shall	
		ensure, before the placing on the market, that the following requirements are met:	
		a) lamp oils, labelled with H304, intended for supply to the general public are visibly, legibly	
		and indelibly marked as follows: "Keep lamps filled with this liquid out of the reach of	
		children"; and, by 1 December 2010, "Just a sip of lamp oil — or even sucking the wick of	
		lamps — may lead to life- threatening lung damage";	
		b) grill lighter fluids, labelled with H304, intended for supply to the general public are legibly	
		and indelibly marked by 1 December 2010 as follows: "Just a sip of grill lighter may lead to life	
		threatening lung damage";	
		c) lamp oils and grill lighters, labelled with H304, intended for supply to the general public are	
		packaged in black opaque containers not exceeding 1 litre by 1 December 2010.	
		6. No later than 1 June 2014, the Commission shall request the European Chemicals Agency to	
		prepare a dossier, in accordance with Article 69 of the present Regulation with a view to ban,	
		if appropriate, grill lighter fluids and fuel for decorative lamps, labelled H304, intended for	
		supply to the general public.	
		7. Natural or legal persons placing on the market for the first time lamp oils and grill lighter	
		fluids, labelled with H304, shall by 1 December 2011, and annually thereafter, provide data or	
		alternatives to lamp oils and grill lighter fluids labelled H304 to the competent authority in the	
		Member State concerned. Member States shall make those data available to the	
		Commission.'	
etnyi acetate	Substances classified as flammable gases	1. Shall not be used, as substance or as mixtures in aerosol dispensers where these aerosol	
butanone	category 1 or 2, flammable liquids categories 1,	dispensers are intended for supply to the general public for entertainment and decorative	
hydrocarbons, C6-C7, n-alkanes, isoalkanes,	2 or 3, flammable solids category 1 or 2,	purposes such as the following:	
cyclics, < 5% n-hexane	substances and mixtures which, in contact with	 metallic glitter intended mainly for decoration, 	
	water, emit flammable gases, category 1, 2 or	- artificial snow and frost,	
	3, pyrophoric liquids category 1 or pyrophoric	- "whoopee" cushions,	
	solids category 1, regardless of whether they	 — silly string aerosols, 	
	appear in Part 3 of Annex VI to that Regulation	 imitation excrement, 	
	or not.	 horns for parties, 	
		 decorative flakes and foams, 	
		— artificial cobwebs,	
		— stink bombs.

The information in this safety data sheet is based on data and samples provided. The sheet was written to the best of our ability and according to the state of knowledge at that time. The safety data sheet only constitutes a guideline for the safe handling, use, consumption, storage, transport and disposal of the substances/preparations/mixtures mentioned under point 1. New safety data sheets are written from time to time. Only the most recent versions may be used. Unless indicated otherwise word for word on the safety data sheet, the information does not apply to substances/preparations/mixtures in purer form, mixed with other substances or in processes. The safety data sheet offers no quality specification for the substances/preparations/mixtures in question. Compliance with the instructions in this safety data sheet does not release the user from the obligation to take all measures dictated by common sense, regulations and recommendations or which are necessary and/or useful based on the real applicable circumstances. We do not guarantee the accuracy or exhaustiveness of the information provided and cannot be held liable for any changes by third parties. This safety data sheet is subject to the set-up of safety data sheets will take precedence. It is your obligation to verify and apply such local legislation. Use of this safety data sheet is subject to the licence and liability limiting conditions as stated in your licence agreement or when this is failing the general conditions. All intellectual property rights to this sheet are the property of us and its distribution and reproduction are limited. Consult the mentioned agreement/conditions for details.
