CONSTRUCTION SAFETY

Product Ref: 087FENCE

Barrier Fencing

Barrier Fencing (Euromesh), is a modern method of barrier fencing for on site use. Made from bright orange reinforced polyethylene making the hazardous area highly visible and preventing accidental entry. Easily held in position with steel pins (Product Ref 087FENCEPI). Creates a temporary, high visibility barrier, to alert public/workers of potential hazards. Roll weight is 5.5kgs.

Product Ref: 08724CSHT

Barrier Tape

Our Deemark Brand Barrier Tape is bio-degradable, non adhesive and highlights the hazardous area with an easily recognisable, distinctive red and white band. Ideal for emergencies as it is easily transportable, very light and low cost in comparison to other methods. Manufactured using LLDPE which makes it easily disposable and environmentally friendly. *Also available in yellow and black.*

Product Ref: 087BUNTING

Bunting

Red & white plastic pennants secured to a narrow plastic rope, for hazard warning of construction areas etc.

Product Ref:086???DZDS

Detectamesh

A high strength, coloured, rot resistant, homopolymer polypropylene mesh, incorporating traceable stainless steel wires, or aluminium foil and overprinted with a warning message in black. Mesh manufactured to BS EN 12613:2001. Bespoke texts manufactured to order.

Construction Safety Signs are available to order online.

ROAD SAFETY

Product Ref: 90477003

Men at work sign

All temporary road signs are manufactured to the required standard of the Road Traffic Sign Manual using Zintec class 1 reflective material so drivers are not dazzled by the road messages. The signs are bonded onto a durable back plate. Steel frame is sold separately.

Product Ref: WBITUMEN25

Bitu-Mend Pothole Repair

A durable, bitumen-based patch repair and overlay material for pot holed asphalt and concrete. Extremely fast and simple to use. Repairs can be driven over immediately and will withstand heavy traffic. Does not require hacking. Suitable for pot holes and dips in roads, car parks, drives etc. Ideal where maintenance time is limited. Withstands heaviest traffic.

Product Ref: TRF0280

Speed Bump

Traffic calming measures made from durable 100% recycled PVC materials. Each section has an integral interlocking facility for ease of sitting and installation. Each inner section has incorporated white reflectors for extra visibility in dark or dim conditions. Speed bumps and end caps sold separately, allowing you to create speed ramps of any length you require. Ideal for car parks, construction sites and estates.

Cataphos Road and Car Park Paint

Cataphos Water Based traffic paint is very durable and kind to the environment. Being water based rather than solvent based, it is ideal for outdoor use for marking up road lines and car parks and can also be used in food storage areas and warehouses. Quick drying. Available in white or yellow and in 5 litre tubs or 18.5 litre drums.

Product Ref: 805C?????

Product Ref: 087BFC1000

Traffic Cones

Big Foot Cone 2 Piece: Probably the best cone on the market now even better when fitted with Starlux D2 sealed cell sleeve.

No waiting road cones, also available on request with police/local authority embossed identification. Height: 53cm.

Product Ref: 087NWC53

01621 828882

ELECTRICAL SAFETY

Electrical Safety Gloves

These gloves are made of special natural latex. Each glove is test stamped for work with voltages ranging from 500V to 36,000V. The anatomical design and light surface texturing gives excellent flexibility and sensitivity for the user. The anti-bacterial finish gives additional skin protection and is particularly important when wearing the gloves for extended periods.

Product Ref: 9968719??

Dielectric Boots

Suitable for contractors, utility workers, electric welders, telecom workers etc. They have certified protection against an electric shock with an oil and chemical resistant sole. These boots also have steel toecaps and electrical insulating. Sizes 3-13 are available on our website. Conforms to EN345-1.SB and EN50321 Class 0. Certified for use up to 1000V AC and 1500V DC (class 0)

Product Ref: BD642102M

Safety Matting

Grey HV switchboard rubber matting. Tested to IEC61111 – class 2. The maximum working voltage is 17KV tested to 20kv. 1000mm width 3.0mm thickness and 40kg weight. It is flame retardant as well as oil and acid resistant. The upperside is ribbed and the underside has a fabric impression.

Safety Rescue Hook

If a victim of electrocution is slumped across a live electrical connection - do not try to pull him away with your bare hands! Experience shows that such action can lead to the victim surviving, whilst the rescuer loses his life! There is often no time to switch off the power so speed is of the essence in this situation, and the only way to deal adequately with this emergency is to pull the victim clear with the 'Safety Hook'. Resistivity: 10/18 Ohm/cm. Breakdown voltage: 80kV/mm. Leakage current resistance: level kA3c. Arc resistance: level L4. Density: 0.995 g/cm³. Resistance to stretch: 240kg/cm sq. Tensile strength: 350kg/cm sq. Maximum bending stress: 315kg/cm sq.

Product Ref: 962509049

Insulation Shrouding

Transparent Shrouding. Weight 40kg-Our flexible shrouding is used to protect engineers working with live voltages up to 1,000 volts. The transparent plastic shrouding is generally used in open switchboards and control panels. The orange neoprene shrouding is used for many applications including cable jointing, repairs and maintenance. The Safety Clamp is available in two lengths with a short and long lever. No other device makes rubber insulation shrouding so safe and so simple. With rubber contacts in headpiece. Joint with special guide ring. Clamps and hooks made of non-brittle plastic.

Product Ref: BD641950R

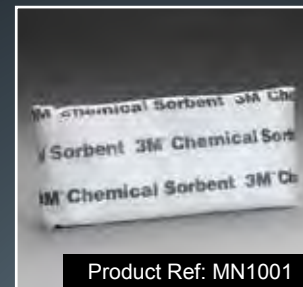

SPILLAGE CONTROL

Product Ref: MF2001

3M Multi Format Sorbents

3M's innovative Multi-Format Sorbents are the simple way to clean up spills, drips and fluid leaks. Incorporating 3M's high performance sorbent technology which increases fluid holding capacity and reduces waste the versatile design is four sorbents all rolled into one. Supplied in a convenient dispenser. Perforated at 40cm intervals. Easy to carry. Easy to read. Use unopened. Use around corners.

Product Ref: MN1001

3M Sorbent Pillows

Sorbent Pillow-Small and lightweight, 3M's Maintenance Sorbent Pillows can be placed swiftly at the source of a leak. The outer cover is tear resistant and their high liquid holding capacity means that they can be left in place for long periods.

Product Ref: MM1001

3M Sorbent Mini Booms

Sorbent Mini Booms are ideal for placing around the base of equipment to contain and control leaks. Will help prevent the leak from spreading to adjacent areas.

Product Ref: MB2001

3M Sorbent Rolls

3M Sorbent rolls 40cm x 45M. Sorbent Rolls have many applications. They are perfect for covering large surfaces, but they can also be cut to custom-fit tight corners, drawers and work benches. **Also available in size 96cm x 45M rolls.**

Product Ref: MA2002

3M Sorbent Pads

These smaller, double thickness pads are designed for use in confined spaces. Their high absorbency makes them perfect for cleaning up small spills and wiping oily equipment. 100 pads per case.

Product Ref: 631032

Oil Absorbent Granules

Non flammable granules with high absorption rate. May also be used as a sweeping compound.

CABLE SAFETY

Product Ref: BDC41008

Cable Protection for Power & Armoured Cables

Prevents accidents caused by trailing cables and leads, eliminating horrific personal injuries and damage to equipment such as computers. Loose cables can be securely retained in the gentle sloping flexible cable protect. Our range of cable protect can be used indoors, outdoors and on roads to protect temporary traffic-light cables etc. to alert public/workers of potential hazards.

Product Ref: BDC40964

Cable Protection - Combi

Ideal for separating groups of cables. Prevents accidents caused by trailing cables and leads, eliminating horrific personal injuries and damage to equipment such as computers. Loose cables can be securely retained in the gentle sloping flexible cable protect. Our range of cable protect can be used indoors, outdoors and on roads to protect temporary traffic-light cables etc.

Product Ref: BDC41849

Cable Protection - Comnet

deal where power and data lead capacity is unequal. Prevents accidents caused by trailing cables and leads, eliminating horrific personal injuries and damage to equipment such as computers. Loose cables can be securely retained in the gentle sloping flexible cable protect.

Product Ref: BDC41881

Cable Protection - Hazard

Hazard cable protector, Designed for safety - eye catching. Prevents accidents caused by trailing cables and leads, eliminating horrific personal injuries and damage to equipment such as computers. Loose cables can be securely retained in the gentle sloping flexible cable protect. Available in black and yellow, blue and white & red and white.

Cable Guard for Wooden Poles

Cable guard for use with wooden poles. A high quality plastic cable guard for the protection of vertical cable runs on telegraph poles, fences and walls. Cable guards for wooden telegraph poles have angled flanges. Cable guards are supplied with screw fixing holes for easy installation. Supplied in perforated 3.04M lengths. Highly shock resistant. Available in grey. Easily installed. Cable guard can also be used to protect other utility supplies on walls i.e. gas, oil, water.

01621 828882

WINDOW SECURITY FILM

Product Ref: 620AL

Glass Repair Film - Adfix 2000

An emergency repair film specially developed to provide a fast and cost effective short term solution to the problem of broken windows, glass doors, partitions and panels, in schools, colleges, hospitals and other public buildings, as well as office blocks and factories, shops, stores and greenhouses. In fact anywhere that broken glass is a potential danger.

Product Ref: 62148

Security Window Film - 1200mm x 30.5M

Can be applied to existing windows and other glass panels not just new ones. It is completely undetectable when applied to glass, yet increases the strength of glazed areas to protect against vandals, fire, bomb attacks or industrial accidents. If a breakage does occur, the film holds the glass in place until it can be safely removed.

Product Ref: 62048S

Solar Control Window Film - Silver - 1200mm x 30.5M

Self-adhesive window film that is applied easily onto existing glass. As well as its unique insulating properties, Solar Control Film reflects up to 80% of the sun's heat and glare, creating a more comfortable working and living environment and saving pounds on air-conditioning and heating bills.
